1991 Fisher 37 "Sentana"

Fisher sailing yachts have a reputation for their solid build quality and excellent rough weather handling, you can see why they have been so popular all around the world. Although marketed as a motor sailor they still sail very well in the right conditions and when it gets rough, you have 80hp and a warm dry wheelhouse to get you out of the elements.

Lifebouys
Life Jackets
Bilge pump

Tender

Dinghy approx 2.5m
Outboard: 5hp Yamaha 2 stroke

Description

With her unmistakable design Sentana is a good example of the well respected Fisher 37. Built in 1990 and sold to her current family in 2001 she was sailed the long way round from the UK to Greece where she has spent the last few years being used as a holiday boat in and around the Ionian.

Fisher sailing yachts have a reputation for their solid build quality and excellent rough weather handling you can see why they have been so popular all around the world. Although marketed as a motor sailor they still sail very well in the right conditions and when it gets rough, you have 80hp and a warm dry wheelhouse to get you out of the elements.

Sentana is in need of some cosmetic updates and TLC but with a little bit of love she has many many years of sailing ahead of her and has been priced accordingly.

When everyone else is sailing AWB production boats here is an opportunity to be a little different and buy a classic sailing boat that stands out from the rest!

CREO Yacht Brokers Ltd take the utmost care to document and photograph each boat accurately however the above description should be used as a guide only and we make no guarantees of its accuracy. Potential buyers should make their own inspections and we strongly suggest engaging a professional surveyor/engineer to help with this. This vessel is offered subject to prior sale, price change, or withdrawal without notice.
