Description

The GibSea 442 has an excellent reputation as a true Bluewater cruising yacht, her solid layup and construction give her excellent handling characteristics in rough weather but her more production style layout makes she is a very comfortable live aboard yacht.

This particular example has been recently equipped with offshore passage making ins mind with new standing rigging, AIS transponder, EPIRB and other equipment added or updated. Her current owners have lived aboard very comfortably for 2 years and have sailed in the Atlantic to the Canaries and now through the Mediterranean to Greece. A change in circumstances mean that their circumnavigation plans have to be put on hold and they need to pass Winderella on to new owners.

CREO Yacht Brokers Ltd take the utmost care to document and photograph each boat accurately however the above description should be used as a guide only and we make no guarantees of its accuracy. Potential buyers should make their own inspections and we strongly suggest engaging a professional surveyor/engineer to help with this. This vessel is offered subject to prior sale, price change, or withdrawal without notice.
